Multan, Paksitan

SUMMARY

Seeking a Software Engineering student proficient in basic front-end website development, programming fundamentals, and Java OOP. Responsibilities include developing front-end interfaces, designing and implementing backend systems, and collaborating with teams. Ideal for a motivated individual eager to apply their skills in a dynamic environment and contribute to impactful software projects.

EXPERIENCE

Web Developer Intern

Nfc Institute of Engineering & Technology

2023 - Present | Multan, Pakistan

Directed project planning and execution ensuring project goals and requirements were met.

- Developed proficiency in basic front-end website development including HTML, CSS, and JavaScript.
- Mastered programming fundamentals and object-oriented programming (OOP) principles in Java.
- Designed and implemented responsive and user-friendly front-end interfaces.
- Collaborated on projects to create efficient and scalable backend systems.
- Developed strong problem-solving skills and attention to detail through coursework and projects.
- Prepared to contribute effectively to software development teams with a solid foundation in both front-end and backend development.
